THE VOGUE OF BRITISH AND EASTERN WRITERS

"Pray," said I, . . . "do they ever read the Quarterly at English Prairie?"

"The Quarterly! Lord bless you — they read nothing but Tom Paine. I never saw any other book in all the Western country."

"Not read the Quarterly!" exclaimed I — "Ah, that accounts for their barbarity." — Paulding, *John Bull in America; or, the New Munchausen*.

Dallas's nephew (son to the American Attorney-general) is arrived in this country, and tells Dallas that my rhymes are very popular in the United States. These are the first tidings that have ever sounded like *Fame* to my ears — to be redde on the banks of the Ohio! — Byron, "Journal."

I

The West, as a pioneer country, received the impress of various outside influences without exerting a very great direct influence in return. The streams of immigration poured into it but did not flow back. The newly arrived settlers sometimes carried with them a certain respect for the cultural ideals of the older states and countries; but, until the growth of population had made the frontier politically powerful, there was no noticeable backwash of influence from the West upon the East. Nowhere was the exchange more uneven than in literature. There, the whole force of a tradition centuries old bore in one direction. Notwithstanding occasional protestations of sectional loyalty, Western writers kept their faces turned toward the East and toward England.

The vogue of the principal English authors of the time, which would probably have been considerable even under less favorable circumstances, was greatly aided by the laxity of copyright restrictions. Everywhere in America it was possible for publishers to reproduce English books more cheaply than they could print the works of native authors. "The fact, that an American publisher can get an English work without money," wrote James Fenimore Cooper, must, for a few years longer (unless legislative protection shall be extended to their own authors), have a tendency to repress a national literature.¹

Fearon's assertion that Byron's *Manfred* "was received, printed, and published all in one day"² testifies to the amazing facility with which the newly imported books of popular contemporary authors might be reproduced in America. Western presses, especially those of Cincinnati, performed their part in this wholesale distribution.³

Bristed's statement, about the same time, that the best English poets are as much read here as in Britain; and Milton, Cowper, Burns, Scott, Southey, Byron, Campbell, and Moore, are formidable rivals to our American bards,⁴

did not, at any rate, overestimate the popularity in either East or West of English writers. Harriet Martineau, who

thought that "If the American nation be judged of by its literature, it may be pronounced to have no mind at all,"⁵ found in this country, nevertheless, a considerable following for almost every English writer of any importance.⁶

The popularity of British authors among critics throughout America was doubtless due in no small measure to the wide circulation of the chief British reviews. Both *The Edinburgh* and *The Quarterly*, current numbers of which were reissued from American presses,⁷ were included in the list of less than a dozen periodicals received at the principal popular library in Cincinnati in 1838;⁸ and it is altogether likely that these famous arbiters of literary taste were read in every important town in the West. Nor was Foster's reprint of *Blackwood's* wholly unknown on the frontier.⁹ Western school readers, the more advanced of which, in spite of some attempt at sectional and national loyalty by their compilers, usually contained numerous selections from the contemporary as well as the older British authors, were a much more popular means of extending the same kind of influence. The very general circulation of the foreign

keepsakes and annuals, especially about 1830 and later, was also significant.¹⁰ Magazines published in the West devoted a generous amount of space to a discussion of contemporary British authors, and the frontier newspapers commonly copied both verse and prose derived from abroad.¹¹

II

There was scarcely an important writer in the whole range of English literature from Chaucer¹² to Tennyson who did not achieve some slight vogue in the pioneer West; but only a few stand out as significant. Among the earliest of these were Shakespeare and Milton, who were accepted as an established tradition. Notices of both are to be found in Western prints even earlier than the end of the eighteenth century;¹³ and their works were accessible, no doubt, in almost all such libraries as the frontier could boast.¹⁴ Milton, to be sure, was laid under tribute by the epic vagaries of Emmons and Genin; but elsewhere the influence

The latter list consists of *The Keepsake*, *The Amulet*, *The Literary Souvenir*, *Forget me not*, *New Year's Gift*, *Landscape Annual*, *Hood's Comic Annual*, and *Juvenile Forget me not*. of his poetry was scarcely perceptible except in brief imitated passages. The great poet might even be made to suffer the indignity of being used as an authority by eccentrics engaged in debates on church ritual; and the prose works were found apt for quotation by the propagandists of radical social theory.¹⁵ Homage, indeed, was done him in one extraordinary article, written, it seems, as a protest to a too negligent public. It was the duty of an editor of periodicals or a contributor to them, said this writer, "to keep in public view the genius and the works of those who are preeminently the classics of his language."¹⁶ For the most part, however, it is likely that Milton was respected rather than known.

Something more, however, must be said for Shakespeare, whose name was familiar, not only to persons versed in the English classics, but to the much larger number of people who saw something of the drama. Of the more than seven thousand performances noticed in the preceding chapter, no less than one in every eighteen was, as has been shown, of a Shakespearean play. From the time when the prologue was pronounced at the opening of the first Cincinnati theatre worthy of the name,¹⁷ Shakespeare was acclaimed

the genius of drama on the frontier, as elsewhere in English-speaking countries; and what was perhaps the finest theatre projected in the West toward the end of the period was to have as its most conspicuous ornament a statue of the great poet.¹⁸ Pioneer publishers and booksellers were able to offer Shakespeare's works in a variety of forms;¹⁹ and, though in the magazine sections of newspapers he was not so much favored as were many lesser writers, especially the authors of patriotic or sentimental verse, it is clear that he was, much more than they, the source of casual illustrative passages which might lend an air of respectability to the borrower.²⁰ There were even slight signs of a more or less popular interest in Shakespeare scholarship.²¹

It seems clear, however, that these books were not published by the Western firm, though they might well have been. For a manifestly exaggerated account of the frequency with which Shakespeare's works were to be found in the cabins of the frontier, see Alexis de Tocqueville, *Democracy in America. Part the Second*, 1840, p. 57.

²¹ For a notice concerning early Shakespeare quartos (1609-1612) owned in America, see *The Cincinnati Mirror and Ladies' Parterre*, Jan. 21, 1832. It may be worthy of note that *The Western Monthly Review* (III, 234-252, Nov., 1829) published "A Literary Essay on Shakespeare," translated from the French of Villemain.

eenth century writers of the neo-classical school exerted a great influence, constantly lessening, but by no means ended even during the period of romantic triumph. The heroic couplets common throughout the first four decades of the nineteenth century were made in the image of Pope; and the satirical versifiers of the West were, in particular, his followers. Thomas Peirce placed only Milton and Thomson by Pope's side on the throne of English poetry:

fresh shall bloom
 Their laurels in the Muse's page,
 And each historian's pen engage.²²

The earliest critical review of the West refused, even while heralding the triumph of a new generation of poets, to deny the greatness of Pope:

We are not enemies, but are admirers of Pope, and take unceasing pleasure in reading his numbers. We have never paid the least regard to the silly attempts which have been made to prove, that the author of the *Essay on Man*, and of the *Rape of the Lock*, was no poet.²³

For the orator, Pope's couplets supplied pointed illustration.²⁴ What was probably the first magazine issued in the

For a later magazine article devoted entirely to Pope but not an original Western production, see the translation of Villemain's "Essay on the Life and Writings of Pope," in *The Western Monthly Review*, III, 205-215 (Oct., 1829). In a brief prefatory note, the translator or editor characterizes Pope as "one of the first poets the world has seen." Curiously enough, Mrs. Trollope makes Flint, the editor of this magazine and, no doubt, the translator of Villemain's critique, say of Pope: "He is so entirely gone by, that in our country it is considered quite fustian to speak of him" (Frances Trollope, *Domestic Manners of the Americans*, New York, 1832, p. 87).

West included biographical sketches, on the ground that

The proper study of Mankind is Man.²⁵

Among the early publications of the Lexington press, then the most important on the frontier, was *An Essay on Man*; ²⁶ and the fact that Pope's influence had not wholly ceased at the end of the pioneer period is proved by the publication in the same town of a lengthy analysis of this poem by a Kentucky author, William C. Bell.²⁷ This volume, called *Analysis of Pope's Essay on Man* (1836), devoted more than two hundred pages to quotation and explication of the poem almost line by line. It was, however, simply the didactic quality of the *Essay* which attracted this writer. He found in it an effective sermon on the text "private good is only to be found in the public good":

It was for the preservation and propagation of this sentiment, applied to all the social relations of citizen, countrymen, neighbors and friends, to the still more endearing ones of husband, wife, father and child, and all the various ties of society, that Pope wrote his *Essay on Man*.²⁸

Like Shakespeare and Milton, Pope was in every library worthy of the name; and there are evidences, too, of the lesser fame of his predecessor, Dryden, and of his successor, Samuel Johnson. Perhaps, however, a no less important influence of these writers and of their imitators was exerted through the vogue of classical literature in English translation, which was largely due to them. When Kentucky was still little more than a wilderness open to the attacks of savages, the Latin and Greek authors were on sale at

Lexington. As early as 1793 we hear of English versions of Homer and Aristotle, and of Cornelius Nepos, Sallust, Virgil, Horace, and Ovid, along with a medley of British writers.²⁹ Homer seems always to have appeared in Pope's dress. Virgil was, of course, known in Dryden's translation.³⁰ Not only the schoolbooks already noticed,³¹ but numerous minor attempts at original English versions and imitations, showed a marked interest in classical literature which seems to have been at its height during the first decade of the nineteenth century. Anacreon³² and Horace³³ were for a time the favorites. The almost universal practice, at this period, of turning the latter author's method to account on subjects of contemporary interest or in making local satire, was illustrated by the appearance of a set of verses called "Horace in Lexington,"³⁴ and of Thomas Peirce's volume *The Odes of Horace in Cincinnati* (1822). There were some attempts at original translations of both Ovid³⁵ and Virgil.³⁶

The British writers who aroused the greatest enthusiasm in the West were, however, the contemporary poets and novelists. Among these, perhaps the most conspicuous for

widespread popular favor were the group of romantic sentimentalists, with "the English songstress of the heart, the unequalled Felicia Hemans," as Flint characterized her,³⁷ and Thomas Moore at their head. Hannah More, who, according to Harriet Martineau, was more popular in America than any other British author,³⁸ was certainly not so on the frontier. The moral tone to which Miss More's rank was attributed, doubtless had no small part, however, in determining the vogue of Mrs. Hemans, who, with Thomas Moore, held the front rank among favorites in the poetical corners of newspapers and other weekly periodicals. Scarcely a paper in the West during the decade following 1825 was without its quota of verses by Mrs. Hemans,³⁹ which, according to Mrs. Trollope, the merchant was wont to scan as he held out his hand for an invoice.⁴⁰ Moore's notoriety, manifested in the same way, but evidently due to

his sentimental quality and to his success as a song-maker, rather than to any moral tendency, began much earlier,⁴¹ yet fell a little short of that achieved by Mrs. Hemans. Letitia E. Landon, who may be regarded as a member of the same group, was at the height of her popularity on the frontier at about the same time with Mrs. Hemans.

IV

Far more remarkable than the vogue of these writers, however, was the phenomenal growth of the cult of the romanticists of action, Scott and Byron, who were regarded as the chief literary figures of the age by those who set themselves up as authoritative critics. Thomson,⁴² Cowper,⁴³ and Burns, pioneers of the new era in English poetry, had each won no small applause, even from readers in the backwoods of the West; and it is a noteworthy fact that Burns was well enough known to be imitated in verses published in a Cincinnati newspaper some years before his death.⁴⁴ Southey, of a later generation, was remarkable

⁴¹ For early evidences of Moore's Western fame, see copies of his verse in *Ky. Gaz.*, Apr. 16, 1805; Feb. 6, and Aug. 11 and 25, 1806; Dec. 5, 1809; and Feb. 19, 1811. See also *Liberty Hall*, Mar. 28, 1810; and Jan. 30, 1811.

⁴² As early as 1788 "A Hymn on the Seasons," in slightly altered form, was made to do duty in describing Western scenery (see *The Kentucke Gazette*, Nov. 22, 1788).

⁴³ Cowper, like Burns, was known in the West during his own lifetime. An early copy of some verses from *The Task* appeared in *The Palladium* (Frankfort), Aug. 9, 1798. Five years earlier, at least the *Olney Hymns* were to be had at a Lexington store (see *Ky. Gaz.*, July 27, 1793). Both Thomson and Cowper were recommended as models by perhaps the most noteworthy lyrical poet of the West as late as 1833 (see *The Cincinnati Mirror and Ladies' Parterre*, for Mar. 2 of that year).

⁴⁴ A poem in the style of "The Holy Fair" occupies two columns in *Cent. N.-W. Ter.*, May 31, 1794. For copies of Burns's own verse appearing in a frontier newspaper of early date, see *Ky. Gaz.*, Nov.

both for his early fame and for the high regard in which he was held by critics of a certain religious bias.⁴⁵

But all praise of such writers was lost in the great din which greeted the triumph of Scott and Byron. The rapidity with which the former, from about 1810, and the latter, from a few years after, became known throughout the frontier country was unparalleled. *The Lady of the Lake* was so much in demand at Lexington within a few months after its publication in Edinburgh that the owner of a copy had to advertise for its return.⁴⁶ By about the same time the fame of this poem had reached Cincinnati.⁴⁷ The novels were still more eagerly received. By 1815, not only the poetry of both Byron and Scott, but the anonymous *Waverley*, which first appeared in 1814, were in the possession of the Lexington Library.⁴⁸ The later novels likewise experienced little delay in finding their way into the hands of the small body of cultured readers in backwoods places.

8 and Dec. 20, 1797. For a review of Carlyle's criticism published in *The Edinburgh Review* on Lockhart's *Life*, see *The Western Monthly Review*, III, 81-91 (Aug., 1829). Aside, however, from imitations of some popular Scotch stanza forms used by Burns, perhaps the most remarkable proof I have noted of the poet's popularity during later years in the West was an anniversary celebration held in his honor at Detroit in 1836 (see *Detroit Daily Free Press*, Jan. 30, 1836).

⁴⁵ For an early reproduction of Southey's poetry, see *The Palladium*, Jan. 15, 1799. As for Southey's reputation as poet toward the end of the pioneer period, it may be remarked that as late as 1836 and by as good a critic as James H. Perkins, he was ranked with Milton, the author of *Job*, and the prophets (see *The Western Messenger*, I, 460, Jan., 1836).

Rob Roy, issued in Edinburgh early in 1818, was actually for sale in Lexington before the end of March the same year.⁴⁹ *Kenilworth* was to be had in Detroit before the end of 1821.⁵⁰ So great was public interest that booksellers in some instances even notified readers in advance of the time when the latest Scotch novel was expected to arrive.⁵¹ James Flint, who visited the Ohio River towns in 1818-1820, found Scott's novels still the literary sensation of the day. At Cincinnati *The Monastery* was in the public eye. "When lately at Louisville," he wrote in a letter of October 13, 1820,

I found an acquaintance reading *Ivanhoe*; during my stay with him, which was only about an hour, two persons applied for a loan of the book. He told me that there were seven or eight copies of it in that town, and that they are no sooner read by one than they are lent to another. Two copies of the *Monastery* had just then arrived in town, and were, if possible, more in request than the former.⁵²

Meantime Byron's fame had spread with equal rapidity. *Hebrew Melodies*, published in April, 1815,⁵³ were to be had in Kentucky within a few months.⁵⁴ And more than a year earlier Byron had recorded "the first tidings that have ever sounded like *Fame* to my ears—to be redde on the banks of the Ohio!"⁵⁵ Both *Manfred* and *The Lament of*

novelist seems to have been most surprised, however, at Byron's penetration to the extreme frontier of the West. At Sault Ste. Marie, "the Ultima Thule of this portion of America," he was particularly impressed by the evidences of the poet's fame. "In two instances," he wrote, "I found in the log-houses of this village complete editions of Lord Byron's works."⁶⁴ As a matter of fact, however, an edition of Byron in eight volumes had been on sale at no great distance from the Sault within little more than two years after the poet's death.⁶⁵

Before the end of the pioneer period the fame of both Byron and Scott was, indeed, everywhere in the West. Steamboats plying on the Ohio and Mississippi were named the "Lady of the Lake," the "Ellen Douglas," the "Marmion," the "Corsair," the "Mazeppa" and the "Medora."⁶⁶ Doubtless names from the same sources were commonly given to children and to slaves as well. In a novel called *East and West*, by a Cincinnati writer, a negro servant is named Waverley. Such great names were given to negroes, says the author, according to a custom which acknowledges the nearness of the sublime to the ridiculous; "or, as the boy was a great pet . . . it may have been to display . . . admiration of the greatest genius of the age."⁶⁷ One may suppose that it was a commonplace proceeding at Western taverns to drink such toasts as "*Byron: His works are imperishable*" and "*To the Memory of Sir Walter Scott.*"⁶⁸ Until 1827 a good deal of

popular interest was manifested in the debate regarding the authorship of the Waverley novels.⁶⁹ Thereafter, as more intimate facts regarding the novelist became known, much attention was given in the public prints to his character and personal affairs. His death was memorialized in verse;⁷⁰ his family life was praised;⁷¹ anecdotes of his experience as a lawyer were recalled;⁷² his relations with the Ballantynes were discussed.⁷³ Byron, on the other hand, attracted much attention on account of the scandals connected with his name. His separation from his wife⁷⁴ and the whole question of his character and of the moral or immoral tendency of his poetry were the subjects of much comment about the time of his death.⁷⁵

⁷⁵ For anecdotes of Byron, see *Detroit Gaz.*, May 29, 1818; and *Mo. Rep.*, July 26, 1827. A poem entitled "Lord Byron's Exit from Earth, (a Report)" was contributed to the *Detroit Gaz.*, Dec. 25, 1818. Shortly after the poet's death, a good deal of space was given to accounts of his last days and to general comment on him (see, for example, *Liberty Hall*, July 13, Aug. 3, Oct. 22, and Nov. 9 and 16, 1824). Even in one of the most liberal journals published in the West, it was held that the poet's character was the central fact in the Byron episode, and that his genius must therefore be regarded as wasted (*The New-Harmony Gazette*, Dec. 20, 1826). For a later

The influence of both Scott and Byron on the literature of more pretentious sort was quite equal to the measure of the popular enthusiasm aroused by them. Allusions, quotations, and imitations were the order of the day. In a single travel account written toward the end of the period by Edmund Flagg, a cultured immigrant to the frontier, there are more than a score of quotations or allusions which testify to Byron's fame — and especially to the vogue of *Childe Harold* and *Manfred* — and a few which show that Scott was also fresh in the mind of the author.⁷⁶ James Hall, whose books on the West may be regarded, with Flint's, as the most valuable early accounts of the new country by a resident observer, though much less discursive than Flagg, does not fail to find in his subject many things suggestive of Scott. His mild ridicule of the curious exotic place names he encounters in Illinois is expressed ironically in the opinion that they would admirably set off the verses of that poet.⁷⁷ The new country's barrenness of well-established popular superstitions, he considers discouraging to the creative artist; for he has in his mind the author of *Waverley* as the ideal creative artist.⁷⁸ Aaron Burr, whose conspiracy in the West, Hall, as a historian, discussed, could make Hamilton experience

certain young women of Kentucky, whose adventure with the Indians is narrated, were not so well skilled in navigation as was the Lady of the Lake;⁸⁰ the first settlers of the country were men who, like Fitz-James, found sufficient lure in danger alone;⁸¹ Indian tactics remind Hall again inevitably of the Highlanders in *The Lady of the Lake*:

When Colonel Hardin and his detachment had passed into the ambushed spot, the enemy rose, discovering themselves on all sides, like the followers of Roderic Dhu, in the splendid conception of Scott.⁸²

In such manner, with only scanty literary allusion of any other sort, did this author give point to what was intended as a sober historical account.

Western writers of fiction often drew their inspiration partly or largely from Scott; and, at the same time, their works testify eloquently to the vogue of Byron. Perhaps the use of historical materials in such novels as Flint's *Francis Berrian* and, especially, M'Clung's *Camden*, affords the best examples of Scott's impress on fiction. Byron, without such fundamental influence, was, nevertheless, so much in the atmosphere of the time that he was echoed by the novelists as well as by the poets. The most striking instance is in F. W. Thomas's *Howard Pinckney*, whose hero, himself compounded of what was intended to pass as Byronic brilliancy and Byronic melancholy, is an enthusiastic worshiper of the poet. Even when engaged in making love, he cannot forbear the pleasure of delivering learned harangues on the life and character of his literary idol. "What a great admirer you are of Byron, Mr. Pinckney," his companion ventures to interrupt on one such occasion. "Yes, Miss Fitzhurst," he replies, "I

love his poetry as much as ever lady loved himself.' " Presently he halts the conversation in order to appeal to a eulogy on Byron in a recent number of *The Edinburgh*; and, having armed himself with this authority, he launches into a dissertation on the poet which is continued through no less than nine pages of the novel.⁸³ With Thomas's hero it is, however, not merely a matter of ardent admiration, but an attempt to imitate the poet's personal idiosyncrasies. " 'You're in a moody, Byronic way, again,' " Pinckney is told by Miss Atherton, another of his sweet-hearts; " 'plague take my lord of poets, for the fancies he has engendered in young gentlemen's brains.' " ⁸⁴

Once the popularity of Scott and Byron had begun, scarcely a frontier verse-maker escaped their influence. There were many tributes in rime, equally numerous echoes of favorite passages, and several pieces of some length patterned upon the longer poems of these writers. Gorham Worth had discovered as early as 1819 that Byron had already been "made a pack-horse for the follies of others;" ⁸⁵ and Worth's own satire, *American Bards*, is clearly a frontier adaptation of *English Bards and Scotch Reviewers*. About the same time Angus Umphraville, who, in his preface to *Missourian Lays*, warned the reader not to expect the genius of "a Byron, a Moore, a Scott, a Campbell, or a Barlow," inscribed his "Lines Written on the Bank of the Mississippi" "as an humble tribute of American respect to the poetical genius of Lord George Byron." ⁸⁶ Thomas Peirce, whose *The Odes of Horace in Cincinnati* contains many echoes of Byron, followed him most closely in "City Poets," designed to chastise the poetasters of the

West. Even Peirce's rimes are significant of influence from this source, for they recall the slipshod cleverness of Byron's later style.⁸⁷ Another work by the same author, called "Billy Moody," was a satirical poem of travels in imitation of *Don Juan*. For F. W. Thomas's verse travelogue reflections in *The Emigrant*, *Childe Harold* was the model. W. D. Gallagher included in his second *Erato* a poem which he entitled "Childe Harold" in Byron's honor; and his example was followed by William Ross Wallace a little later. For Wallace, Byron is the "Great Bard," whose "deathless name" is crowned with glory:

ITALIA brightly breathes of thee,
And SCIO with her coral sea! —
Immortal GREECE hath caught the tone,
The ALPS repeat it on their throne!⁸⁸

Scott's influence on Whiting's Indian metrical romances, *Ontwa* and *Sannillac*, has been noticed at some length. Beach's *Escalala* was scarcely less indebted to the same model. Imitation descended even to parody in such verse as Hall's dedicatory lines "Oh! a new SOUVENIR is come out of the west."⁸⁹ Mrs. Hentz's *Lamora*h afforded, on the stage, an example of plain plagiarism in the Indian girl's song of warning, on the model of Blanche of Devan's.⁹⁰ Gallagher, who had done honor to Byron in a "Childe Harold," nevertheless placed Scott first, though not for his poetry. In an ode to "the Author of Waverley" he prophesies for Scott future glory as a twin star in greatness with the "Man of Destiny."⁹¹ James H. reality into a world of the imagination, names Scott as one of the chief masters of this kind of magic:

In her great name we need but call
Scott, Schiller, Shakspeare, and, behold!⁹²

Both Scott and Byron, moreover, received not only the tribute of popular applause and the praise of the writers of fiction and of poetry, but also the suffrage of the reviewers, especially during the early years of their fame. *The Western Review and Miscellaneous Magazine*, which was at this time the only important critical journal in the West, had little but admiration to express for the author of the Waverley novels. Every volume of Scott's fiction which appeared in 1819 and from that time till the *Review* ceased publication, in 1821, was discussed at length in the pages of this early censor of literary taste on the frontier. Something of the importance which the editor attached to the Scotch novels is shown by the promptness with which the reviews followed the appearance of the books — every one of these articles, in fact, appeared in the same year with the publication of the work on which it was based. *Ivanhoe* was reviewed in May, 1820; *The Monastery*, in July; and *The Abbot*, in October and December. *Kenilworth* was praised in April of the following year; and specimens of *The Pirate* were printed in the number for July — the last issue of the magazine — before the novel had been published in America, we are told. The criticisms, not all by the same hand, are unanimous in their praise of Scott. "We do not hesitate," wrote the author of one of them,

to avow the sentiment of congratulation, which we cherish toward the present period of the world on account of the appearance of Waverley and its successors. There is no thing in ancient literature, which the classical scholar can

bring forward as an offset for these delightful and masterly productions of modern genius. . . .

We cannot dismiss our miscellaneous comments upon the Abbot, without expressing our gratitude to the author for the reiterated and accumulating pleasure, which his works afford us. If this man be Walter Scott, it is his own fault that we are made to forget his poetry in the superior interest of his prose. We would rather have the fame, acquired by these novels and justly due to them, than that of any living bard whatever; not that talents equal to Byron's are shown, but the former are pure and holy, while the latter are corrupt and damning.⁹³

Byron, whose *Mazeppa* was appreciated in the same *Review* for October, 1819, though praised only with some reserve, was willingly granted supreme genius. The writer of the criticism of *Mazeppa* found the poem "spirited and excellent" and took occasion to protest against the attacks of Eastern papers on Byron.⁹⁴ The early cantos of *Don Juan*, which were reviewed in the same magazine some months later, evoked, however, less decided praise. The spectres of Byron's immorality and irreverence haunted the mind of the critic. "Much good, or much evil," he ventured to predict, "may be drawn from *Don Juan*, and will be drawn by readers of different ages and tastes."⁹⁵ The *Review*, whose final issue contained an appraisal of *The Prophecy of Dante*, was not succeeded during Byron's lifetime by any critical periodical of like importance; but in such minor writings of the kind as did appear at that time it is clear that the question of morality, as raised by *Don Juan*, troubled the poet's admirers, who entertained only a faint hope that he might return to his earlier manner. the year of Byron's death, a writer in the most prominent Western literary journal wrote thus of *The Island*:

His Lordship has here returned, with some success, to the heroic measure of "THE CORSAIR;" but we fear he has too long been debasing himself with the splendid ribaldry of '*Don Juan*,' ever wholly to regain the purer power and pathos of his earlier muse. Some portions of the present poem, however, are not unworthy of the genius which painted in such glowing colours the loves and sufferings of *Conrad* and *Medora*.⁹⁶

V

The other great romantic poets — Wordsworth, Coleridge, Shelley, and Keats — were little noticed in the midst of the excitement attending the triumphal reception of Byron and Scott. So far as it may have been intended to apply to the West, Harriet Martineau's declaration that "Byron is scarcely heard of" but that "Wordsworth lies at the heart of the people" could hardly have been wider of the mark. Wordsworth's name, she wrote,

may not be so often spoken as some others; but I have little doubt that his influence is as powerful as that of any whom I have mentioned. It is less diffused, but stronger. His works are not to be had at every store; but within people's houses they lie under the pillow, or open on the work-box, or they peep out of the coat-pocket: they are marked, remarked, and worn.⁹⁷

Such an estimate must have resulted, not from careful observation, but from the writer's own enthusiasm for Words-

worth. "Coleridge," she added, with much better judgment, "is the delight of a few." And the reputation of Shelley and Keats was, as a matter of fact, not only later, but even much less. *Lyrical Ballads* was to be found in the Lexington Library as early as 1815,⁹⁸ seventeen years after its appearance in England; but there were few other signs of either one of its authors until much later. "We are Seven" (with the original opening line) became, after 1825, a somewhat popular newspaper gem;⁹⁹ and Coleridge's "Love" enjoyed a similar notoriety.¹⁰⁰ It is a more striking fact, however, that the volume containing "Christabel," "Kubla Khan," and "The Pains of Sleep" was to be had in Lexington by January, 1818.¹⁰¹ In libraries and sales collections during the period ending in 1840, there is only scant testimony to the fame of Wordsworth, Coleridge, Shelley, and Keats. In the forty-page list of books advertised by one of the chief Ohio booksellers in 1831, none of these four authors was included;¹⁰² and from the catalogue of the same firm for 1833, Wordsworth was still absent. Two years later a minor list of Detroit booksellers, sufficiently large to include Coleridge, Shelley, and Keats, showed the same disregard of Wordsworth.¹⁰³ Curiously enough, a number of libraries exhibited exactly the same interest in Coleridge, Shelley, and Keats and lack of attention to Wordsworth.¹⁰⁴ Perhaps the vogue of the three

former, small as it was, was due in part to the fact that all of these poets were early to be had together in a single volume. It was, at all events, this one-volume edition that was usually contained in the lists mentioned. In the library of perhaps over four thousand volumes owned by the State of Ohio in 1840, it is again the same collection of the three poets which appears; but in this case Wordsworth too is represented.¹⁰⁵

It is, indeed, clear that the fame of these great romanticists was only beginning to make itself felt in the West, and that their reputation was still in the hands of the reviewers, who praised them in an apologetic tone but were sometimes openly hostile. As early as 1820 we find such timid recommendation of the older poets of the group as this:

We can see very great poetical excellencies, not only in SOUTHEY, SCOTT, and CRABBE, but in WORDSWORTH, HOGG, LEIGH HUNT, and even in COLERIDGE. The short piece, entitled "Pains of Sleep," by the last writer, is an admirable picture of mental distress in a dream.¹⁰⁶

In later years the critics were especially concerned about the obscurity of Coleridge's prose, but at the same time grew bolder in their praise of his poetry. The author of

verses "To Coleridge, after Reading Some of his Darker Writings"¹⁰⁷ regrets the attempts at prose which occupy the attention of one who should devote himself to poetry alone. "His imagination," said another commentator, writing in the year following Coleridge's death,

flew meteorlike athwart his calmer and more starlike philosophy. His mind might be said, to use his own language, to be "self-dazzling, because of its own exceeding brightness." But this brightness was not the light of noon-day. Coleridge was a MYSTIC—a beautiful, wonderful one, but still a Mystic.¹⁰⁸

The publication in 1836, at both New York and Cincinnati, of *Letters, Conversations and Recollections*, aroused new interest in this author. W. D. Gallagher found in these pages proof that Coleridge was

forever grumbling, because of a petulant and jealous disposition, and dissatisfied with existing canons of criticism, existing forms of government, existing administrations of justice, and existing philosophies.

Nor did the critic have a high opinion of Coleridge as philosopher. "We confess at once," he said, "that we do not comprehend him." Yet Gallagher granted him the possession of great genius:

for Coleridge the Poet, as we have known him from boyhood, and Coleridge the Man, as we behold him in parts of the volume before us, our respect borders on veneration.¹⁰⁹

A somewhat lengthy appreciation which appeared in an important periodical exactly three years later showed the continued growth of Coleridge's reputation at the end of the pioneer period.¹¹⁰

No doubt Byron and the British reviews were responsible for the fashion which was prevalent among frontier critics of overemphasizing the simplicity of Wordsworth. As early as 1828 we hear of him as "that celebrated poet" the admirers of whose simplicity are challenged "to point out, in all his works, or in those of his disciples, a single verse, which is as simple, as descriptive, or which contains so much matter in small compass" as some of the songs of the Western river men.¹¹¹ In later years a few voices of enthusiastic praise were, indeed, to be heard. James H. Perkins, in *The Western Messenger*, reproached "that poor school of critics of which Francis Jeffrey walked foremost" and asserted Wordsworth's right to stand beside Milton in the front rank of the English poets.¹¹² But Perkins frankly admired Wordsworth more as "a great Christian philosopher" than as a poet. Probably no finer tribute to the glory of the earlier Wordsworth was paid by a Western writer than Christopher P. Cranch's poem "To my Sister M., with Wordsworth's Poems."¹¹³ At length, the poet of "Tintern Abbey" received homage; the young priest of nature was recommended as a "thoughtful sage and poet" and "a hallowed name." Doubtless Wordsworth became better known in the West after Professor Reed's American edition of 1837, of which, at any rate, there are some notices.¹¹⁴ But what is perhaps the last important critical

For a very brief notice of Wordsworth, half a dozen years later, in which the poet's quality of "devout simplicity" is emphasized, see *The Western Monthly Magazine*, II, 311-312 (June, 1834). An earlier and more favorable comment on Wordsworth, inspired by the "Song at the Feast of Brougham Castle," occurs in Timothy Flint, *Francis Berrian*, 1826, I, 188.

comment on his poems during the pioneer period returns to the old formula of Byron and Jeffrey. In the writings of the group among whom Wordsworth is chief, declares Otway Curry,

both poetry and doggerel are so constantly and ludicrously intermingled that there is a good deal of difficulty in determining which is the predominating material.¹¹⁵

"Strange fits of passion have I known" is offered as an example of Wordsworth's shortcomings.

Aside from his appearance in the same volume with Coleridge and Keats, there seems to be no evidence that Shelley was known at all until long after his death.¹¹⁶ Even then his fame was almost wholly confined to two reviews. The *Messenger* condemned with measure his extravagant behavior and radical opinions, but admired his poetry. He was a "much reprobated, little read, and less understood son of the Muses," who was, nevertheless, without a superior in power of imagination.¹¹⁷ The *Hesperian* accorded him even more generous praise, contrasting him favorably with Wordsworth.¹¹⁸

Almost the only recognition which Keats received was, it would seem, due to the circumstance of his brother's residence in Louisville and acquaintance with the editor of the *Messenger*. The publication, for the first time, of some of Keats's verse and prose in this magazine¹¹⁹ marks the point of closest connection between the great English poets and Western periodicals. Moreover, James Freeman Clarke,

at that time in charge of the *Messenger*, deserves recognition as one of the first critics to realize the value of the poet's prose. "We wished," he wrote,

to say a word of the prose writings of Keats.

These have not hitherto been published, but it appears to us, from the specimens which we have seen of them, that they are of a higher order of composition than his poems. There is in them a depth and grasp of thought; a logical accuracy of expression; a fulness of intellectual power, and an earnest struggling after truth, which remind us of the prose of Burns.¹²⁰

The praise in the *Messenger* was echoed the following year by *The Western Monthly Magazine, and Literary Journal*, where a lengthy criticism did honor to Keats as a poet of no ordinary power, and, unfortunately, helped perpetuate the misconception of him already spread abroad by *Adonais*. "The subject of this article," it was declared,

is a striking instance of the melancholy effects of ill-natured and malicious criticism upon a sensitive mind conscious of its own powers; it may be truly said, that it brought him to an untimely grave.¹²¹

VI

If the philosophical poets and the more subtle masters of verse and imagery among the great romantic writers were only tardily recognized in the West, the most important early Victorians experienced a very different fortune. Tennyson had received the tribute of a review in the *Messenger* within half a dozen years after he had first come before the public. The author of this enthusiastic encomium had, he tells us, transcribed half the volume of *Poems, chiefly Lyrical* into his commonplace book, "as no other copy

could be found in any book store.''¹²² The same periodical published a formidable commentary on Thomas Carlyle as a German scholar,¹²³ and later noticed the same author as a historian.¹²⁴ *The Hesperian* gave even more space to this new writer.¹²⁵ Miss Martineau had already reported, indeed, that in America "No living writer, . . . exercises so enviable a sway, as far as it goes, as Mr. Carlyle;"¹²⁶ but according to Captain Marryat, a few years later, American publishing houses estimated that not more than six hundred copies of Carlyle had been printed and sold in the whole country.¹²⁷ Dickens was already an important name in the Western reviews,¹²⁸ and his fiction had begun to appear serially in frontier periodicals.¹²⁹

VII

The literary influence of the Atlantic states in the West was widely diffused and of great significance. Eastern critics must often have furnished the mould in which Western literary estimates were formed. Especially was this true after the establishment of *The North American Review*, which became the official spokesman for American taste on points of difference from British opinion. Yet the hegemony of East over West was not marked by the extraordinary vogue of any important author belonging to

the older section of the country. The enthusiasm for the most popular poets and novelists of New England or New York was inconsiderable in comparison with that displayed for British writers.

Of the older colonial authors, perhaps none enjoyed any considerable following. *Essays to Do Good* were, it is true, reprinted at Lexington, and published by subscription, as late as 1822. But there is no substantial evidence that Cotton Mather or any other writer of his time was widely read. Among the earliest national writers, none but Joel Barlow seems to have been much known. During the first decade of the nineteenth century some of his verses were copied into the newspapers.¹³⁰ His works were to be found in a number of libraries, and so staunch was the patriotism of the West that *The Vision of Columbus* found even in one of the smaller backwoods towns a publisher willing to reproduce it.¹³¹ There were some poetasters who, like Umphrville, could rank Barlow with Byron and Scott;¹³² but no doubt the most pernicious effects of the epic bombast of the Eastern writer are to be found in the works of Emmons and Genin.

For the rest, there were the popular triumphs of such insignificant sentimental moralists as Selleck Osborn and Hannah Gould; the ephemeral reputation of James Gates Percival, N. P. Willis, and Fitz-Greene Halleck; the still uncertain allegiance to Washington Irving and James Fenimore Cooper; the more solidly established distinction of Bryant; and the beginnings of the fame of Holmes, Whit-tier, and Longfellow. Hawthorne attracted the attention

of a few critics. Emerson was scarcely a name. Poe was almost wholly unknown.

Perhaps nothing could better testify to the generally low state of public taste as interpreted or represented by pioneer journalists than that Selleck Osborn was admired for a score of years and that Hannah Gould succeeded to his honors.¹³³ Though Gorham Worth, in 1819, excepted Osborn alone from the wholesale condemnation of native poets,¹³⁴ there seems to have been no serious praise of the Eastern poetaster in the critical journals, the first of which was founded about this time. Miss Gould's reputation had likewise little support from the reviewers. Yet it is a reasonable conjecture that the products of these two New England writers, together with the even more popular banalities of such English authors as Moore and Mrs. Hemans, had no small share in the inspiration of the vast deal of mediocre verse published in the West before 1840.

Percival, whose example, as an early critic pointed out, may have influenced Gallagher's *Erato*,¹³⁵ was certainly known on the frontier within a short time after the appearance of the second *Clio*.¹³⁶ N. P. Willis was undoubtedly

¹³³ Osborn was probably the most popular American poet of the whole period if one may judge by the number of copies of his verses in the poetry corners of the newspapers. I have noted quotations from him as early as 1806 (*Liberty Hall*, Sept. 15 and 30; *Ky. Gaz.*, Nov. 6) and as late as 1825 (*The National Republican and Ohio Political Register*, Sept. 30; *Mo. Rep.*, Oct. 24). Miss Gould's vogue, of exactly the same kind, seems to have been greatest from 1830 to 1836. For a number of original contributions by her, see *The Western Monthly Magazine*, *passim*.

among the most widely known of all Eastern authors.¹³⁷ His writings served, in 1838, as the text for a notable plea by Gallagher directed against the general neglect of American literature.¹³⁸ In comparison with Willis, Halleck received slight attention in the West.

Irving was known on the frontier from the time of the first parts of *The Sketch Book*, but praise of his work was not unanimous. Gorham Worth satirized him sharply, but clearly with little claim to be heard:

If newspaper and magazine eulogies were to be admitted as evidence in an estimate of literary merit, Mr. Irvine [*sic*] and his coadjutors would outrank even the great classics of antiquity. But alas! the arts of puffing and book-making, the notorious co-partnership of authors and reviewers.¹³⁹

Irving, he declared, might perhaps be considered "a very pretty birth-day poet;" but "as a writer, claiming notoriety and rank in the republic of letters, he is lamentably deficient." Worth had, he confessed, not yet read *The Sketch Book*; but the specimens of it which he had seen in the gazettes were, he believed, "surpassed, in the same department of writing, by at least fifty female novelists that might be named." In the following year, however, *The Sketch Book* received a tribute from the Kentucky review which was the chief purveyor of critical opinion at that time in the West.¹⁴⁰ The success of *The Spectre Bridegroom* and *Rip Van Winkle* as adapted for the theatre¹⁴¹ was a further sign of Irving's growing reputation; and during his visit to the West the author himself was "hailed with acclama-

tion in the theatre of Cincinnati." ¹⁴² Gallagher, a little later, gave him rank, indeed, with Longfellow and Hawthorne; but found all three of these writers lacking in "force, comprehensiveness, intensity." ¹⁴³

As early as 1823 Cooper was heralded in the West as an American novelist who seemed to be running the career of the author of *Waverley*.¹⁴⁴ Yet the writer of the first important critical estimate of the native romancer, five years later, declared him worthy of respect only "as a man, whom we consider capable of doing far more than he has yet done," and was distressed to find, in the fiction which had then appeared, not only a lack of probability, but also a lack of moral aim. Cooper was afterwards attacked on the ground that in *The Prairie* he had failed lamentably to catch the true spirit of the West; ¹⁴⁵ and some, who, like Governor Cass, were champions of the less attractive view of savage life, stoutly denied the veracity of his delineation of the Indians, though acknowledging his genius. "With the powers of invention and description displayed by this writer," Cass declared,

it is a source of regret that he did not cross the Allegany, instead of the Atlantic, and survey the red man in the forests and prairies, which yet remain to him. . . . His Uncas, and his Pawnee Hardheart, . . . have no living prototype in our forests. . . . They are the Indians of Mr Heckewelder, and not the fierce and crafty warriors and hunters, that roam through our forests.¹⁴⁶

In spite of the strictures of such critics, however, Cooper's influence upon Western fiction was of importance, especially

in the case of M'Clung, who aspired, he says, to "wing a flight a little below Cooper;"¹⁴⁷ and the echo of the earlier novelist's fame in the frontier theatres has already been noticed.

Bryant began to be known in the West about 1825;¹⁴⁸ and, although he enjoyed no great popularity there, he soon became an important influence on such writers as Flint and Gallagher. Flint, who declared that his school was "the contemplation, and the study of nature,"¹⁴⁹ and who demanded of his own critics an "imagination to admire" and a "heart to feel simple nature, as I have communed with her,"¹⁵⁰ did not think of Wordsworth, but of Bryant, as his teacher. Even many American poets, he wrote, in 1829, were better known; but his own taste was for Bryant, "the poet of our country, if we might not say, of the age."¹⁵¹ It is altogether likely that Bryant's example was also in Gallagher's mind when he wrote the best of his verses in the three numbers of *Erato*. The fact that letters which Bryant wrote during a visit to the West in 1832 show no evidence of his reception there as a famous poet¹⁵² may, perhaps, be due to the incompleteness of the record or to his desire to avoid popular applause. There is, however, no very good reason to suppose that his name was widely known.

In 1830, the year of its first appearance, "Old Ironsides" was copied into a Western paper;¹⁵³ and others of Holmes's poems, first published in *The New-England Magazine*, were to be found in a frontier print two years later.¹⁵⁴ But there is little evidence that this poet's reputation increased greatly before 1840. William Ross Wallace, as we have seen, wrote an imitation of "Old Ironsides." In *The Western Messenger*, always sympathetic with New England literary opinion, or even in advance of it, the *Poems* of 1836 were reviewed with generous praise; and in the same periodical there appeared some stanzas contributed by Holmes and not previously published.¹⁵⁵

Of the great quantity of Whittier's youthful journalistic verse, the West early received some share. "Spirit of the Pestilence," printed in *The Daily Cincinnati Gazette*, of June 21, 1830, was described as an unpublished poem, from manuscript.¹⁵⁶ To another Cincinnati paper he sent verses in honor of Clay,¹⁵⁷ with whose political fortunes he was soon to be more intimately connected through George Denison Prentice, Whittier's predecessor in the editorial chair of *The New England Review*. Among Western critics, Gallagher was early to recognize the Quaker poet's genius. He not only copied some of Whittier's poetry in 1832,¹⁵⁸

but pointed him out as a "man whom his countrymen will yet delight to honor."¹⁵⁹

Longfellow, though not wholly unknown as early as 1826,¹⁶⁰ gained the suffrage of few critics until 1839, when, with the publication of *Voices of the Night*, his popularity began. As late as the preceding year, *The Hesperian* had found, as has been seen, that Longfellow was, like Irving, lacking in certain cardinal qualities of literary greatness. The *Louisville Literary News-letter*, of which Edmund Flagg, a fellow collegian of Longfellow's, had recently been editor, was perhaps the first journal in the West to begin the enthusiastic praise of the author of *Voices of the Night*.¹⁶¹

Hawthorne, still in the period of *Twice-told Tales*, was, of course, very little esteemed. The best we hear of him is that he belongs to "the Irving and Longfellow school of writers; and without possessing the sparkling fancy or original genius of either of these authors, is eminently worthy of being called their disciple."¹⁶² A year later the same review again classed Hawthorne as a member of this school and a sharer in its faults and virtues.

Emerson's contributions to *The Western Messenger* have already been noticed.¹⁶³ There is, perhaps, no other evidence that he was known at all on the frontier; but in one instance, at any rate, among a remarkable group of New England men who were missionaries not only of religion but of literature among the Ohio River towns, he was

praised generously and intelligently. The *Messenger* was even a partisan of the persecuted author of the Divinity College address. For the Western editor there was nothing objectionable in this bold pronouncement; the address was rather a cause for delight.¹⁶⁴ Of the hitherto unpublished verses which Emerson sent — “The Humble-bee” and others of his best — the editor knew the true value. He found in them the “same antique charm, the same grace and sweetness, which distinguish the prose writings of our author.”¹⁶⁵

BIBLIOGRAPHIES

The bibliographies which follow are intended as a record (necessarily incomplete) of works published before 1841 either by citizens of the Middle West or by travellers who described the Middle West from their own observation. A few titles, however, not strictly within the limits thus defined have been included on account of their special significance. On the other hand, certain classes of publications, such as legal compilations, public documents, broadsides, and newspapers of no considerable importance, I have omitted so far as it was convenient to do so. Critical authorities later than 1840 or of other than Western origin are excluded from the lists here given; but those which have served in any way as a basis of the present study are cited in the footnotes of various chapters and are to be found in the index.

Usually only the first American or English edition of any work is recorded in the bibliographies. Minor variations among copies contained in different libraries are not, except in a few instances, indicated. Unimportant irregularities in the numbering of pages have likewise been disregarded for the sake of brevity. Separate series of pagination are noted, but only one number is given when numerals of different styles are arranged consecutively or approximately so.

Except where the source is explicitly stated, the titles are from the originals (I have attempted to reproduce peculiarities of spelling and punctuation). Nothing has been drawn from Sabin or other such general bibliographies, where a few additional items are, however, to be found. Whenever possible I have named at least one library where each work listed is to be had, but I have made no attempt to supply a complete finding list. I have not been able to describe in detail the periodical and newspaper files in the possession of every library mentioned as possessing them; the record of issues included or lacking is often necessarily a very general one, and is sometimes based wholly upon information derived from card catalogues or printed check lists not cited below.

Besides those employed throughout this study for certain newspapers frequently cited, the following abbreviations are used below:

CHAPTER IX

THE VOGUE OF BRITISH AND EASTERN WRITERS

(See bibliographies for earlier chapters.)

INDEX

The index includes no references to preface or bibliographies. Nor does it include the names of Middle Western states (too often mentioned for practical indexing); names denoting sections of the United States (e.g., *the West*), except *New England*; or such general and frequently recurring geographical terms as *America*, *Europe*, *Atlantic*, and *Pacific*. With these exceptions, I have attempted to list all proper names used in the book.

Works cited in the footnotes as *op. cit.* are so marked in the index, and are to be found through reference to the name of the author. Works cited in the footnotes as *ibid.* are indexed by title. All references to footnotes are followed by the abbreviation *n.* except when several consecutive page numbers are united in a single entry. A dash denotes repetition of only the first word in the preceding entry. Certain ligatures have necessarily been printed here as separate letters.
